# 10 Simple Tips to Handle Interviews

### 1. Understand the question first

Don't hurry. Listen carefully.
Sometimes interviewer is checking your thinking, not just the answer.

### 2. Think why they are asking

Ask yourself:

- Are they checking confidence?
- Communication?
- Teamwork?
- Problem solving?
- Attitude?

### 3. Don't react immediately

Pause for few seconds.
Calm answers sound more professional.

### 4. Take your time

It is okay to think before answering.
Quick answer is not always smart answer.

### 5. Avoid weak words

Instead of:

- "I think…"
- "Maybe…"
- "Somehow…"

Use:

- “I believe…”
- “I am confident that…”
- “One of my strengths is…”

### 6. Keep your tone professional

Friendly is okay.
Too casual is risky.

### 7. Body language matters

- Sit straight
- Smile naturally
- Maintain eye contact
- Avoid folding hands tightly

### 8. Connect answers to the role

Even if you speak about college/project/training, connect it to work skills.

### 9. Practice speaking

Read answers loudly.
Practice with friends.
Record your voice if possible.

### 10. Stay positive

Even tricky questions can be handled calmly.
